

# Inverted "T" Bait Station

## Tier 1 Bait Station requirements:

- 1) constructed of high-strength material (e.g., metal or injection-moulded plastic) and resistant to destruction by children and non-target animals;
- 2) have an entrance designed so that children and non-target animals cannot reach the bait;
- 3) have an internal structure that prevents bait from being shaken loose;
- 4) have an access panel which fastens securely and locks (e.g., metal screw or padlock);
- 5) bear the product name, active ingredient, guarantee, registration number, "WARNING POISON", and the skull and crossbones symbol, e.g.:

WARNING POISON  
Rozol RTU  
PMRA Reg. # 29545  
Chlorophacinone 0.005%

- 6) be resistant to destruction or weakening by elements of typical non-catastrophic weather (such as, snow, rain, extremes of temperature and humidity, direct sunshine, etc.).

**Each 10 ft. PVC section yields two "T" stations.**
